

3 CARD POKER

3 WAYS TO PLAY! 4 WAYS TO WIN!

Three Card Poker is an exciting stud poker game that offers three ways to play and four different ways to win. You may bet against the dealer, bet on the value of your own three card hand, or bet both. Bonus payouts may be had for certain hands when wagering against the dealer.

PAIR PLUS

Pair Plus lets you bet against your own hand. If your hand contains a pair or better, you win!

ANTE AND PLAY

Play begins with a wager on the Ante. After you view your three cards you may either raise by putting an equal bet on play or fold and lose the Ante bet. If you fold you also lose the Pair Plus bet if one was made. This should not be any sacrifice because if the Pair Plus bet paid anything, you shouldn't fold.

If you raise, you then go against the dealer's hand. The dealer needs at least a queen high to qualify. Below are the possible outcomes and their payoff:

- Dealer does not qualify: Ante wins 1 to 1, play bet is returned.
- Dealer qualifies and player beats dealer: Both Play and Ante win 1 to 1.
- Dealer qualifies and dealer beats player: Both Play and Ante lose.
- Dealer qualifies and dealer ties player: Both Play and Ante push.

ANTE BONUS

If you make the ANTE and PLAY wagers, you may win a bonus payout even if the dealer doesn't qualify, and even if the dealer's hand beats your hand.
